In a game of solids and voids, of lights and shadows, the RIVA collection is born. It takes inspiration from the Moorish style of Andalusian architecture and it is characterised by its severe and essential lines. The empty spaces, created by the particular making of the yarn, bring to mind the arches of the Palace of Carlos V in Granada. A touch of Spain in your house.

The texture of natural teak is delicate and warm.

Super thick cushions with high density foams for an extra soft seating experience.

The leisurely and elegant weaving outlines the ever-changing light and shadow.

An exciting blast inspiration from the Sixties. This collection is a clear reference to the 60s world where harmony and calm were essential. Convenience and comfort, stability, lightness and adaptability are the main features of this outdoor furniture. This is LEO collection, characterised by the decisive sign of the armrests, which represent its distinctive feature such as the essentiality of the lines. The curved armrest has a strong character and gives a sense of lightness. The backrest with woven rope brings nature and richness to this collection.

A breeze in a shady corner of the arid and sunny lands of South Italy. A game of shadows. This is the LIGO collection.

Meant to relax, put themselves in a safe place and leave out all bad feelings. A simple construction but which carries with it distinctive and recognizable signs. Its shapes wrapped in fabric recall old tents collected on the beaches.

NEW COLLECTIONS 2024

As a member of Higold, I am very happy to spend a good period of my life to work with you.

Higold relies on the top quality to promote the business development, and the top quality is achieved by the people and the management system. First of all, people are the manufacturers of products. Only excellent employees can produce top quality products. Secondly, the management system, especially for quality management, is an effective guarantee for standardized and large-scale production of products. Therefore, the company will only grow when its employees grow, and the growth of individual employees is fundamentally consistent with the development direction of the company. Innovation is the eternal source of the company's development. In order to expand the enterprise living space, in order to open up more broad development for individuals, we need to be full of passion, maintain the source power of innovation, improve work efficiency, improve the quality of work, keeping surpass ourselves always.

In the background of a company who has the core competitiveness by improving the management innovation and the process reengineering comprehensively and who has enough opportunities and space for sustainable development and strives to create a level playing field, as long as you think and work hard, learn modestly and keep improving, you will be evaluated fairly eventually. More important thing, this learning mindset itself is a key to success.

Team work spirit and strong professionalism are the source of the inexhaustible strength for a company. You will obtain better play and achieve greater achievements only when you integrate your talents into a team. Based on the premise of a common goal and overall image, the company advocates the development of individuality and provides broad development space for employees. To win, you must first win yourself. We Only can surpass ourselves and our rivals by continuous learning and self-reflection. "Change" is our eternal theme, of course, "change" is also an experiment, whatever successes or failures, we will accommodate them with a broad mind. Standing at the starting line of the new century, let's arm ourselves with a new idea and inherit the essence of our advantageous culture. Let's extend the organization culture idea which is more beneficial to the enterprise development, and Let's build the dream team of the new century.

Finally, as a representative of the company's executives, what I care more about is the feelings of employees and whether they can grow and acheive their personal dreams in our company. At the same time, I sincerely thank you for what you have done for the company and your efforts as a member of this team, I wish you a happy work in the future!

-- Ou Jinfeng, chairman of Higold Group

Simplicity and sobriety in the shapes and colors influence the furniture outdoor NOLA collection. It takes inspiration from the minimalism of the architecture. "Less is more" is a sort of contemporary philosophy where there aren't unlimited resources in the world and man makes things with what he finds and recycles. NOLA collection is a thought for the future, all about saving the planet and minimizing materials. The armrest becomes an extra element where you can comfortably place any type of object. This collection contains everything essential you ask for in one piece.

## DESIGN OF PININFARINA OUTDOOR FURNITURE

Inspired by the lightness of wing, the archetype par excellence that combines lightness and strength in the WING collection, the designers were guided by the concept of physical and perceived lightness.

The dynamic, pure and elegant lines give the collection a style suitable for both urban contexts and environments where nature is the protagonist. The elements of the collection are characterized by a folded aluminum structure and enriched by geometric and essential lines that recall the world of architecture.
